

Please don't force FM translators off the air. Our family listens to KLOVE daily. We here about community events, national events and are constantly encouraged through their music. We need more family friendly programming and less Howard Stern types. We want to grow our children and our communities with high moral values. KLOVE promotes this and our family would be lost if KLOVE went away. I my 16 year old daughter loves this station and I'm glad she does. KLOVE encourages good family values and we need that in this country, not political correctness or profit motivation.

Thank you.
